Emburse Sub-processor Letter Q4 2026

Proposed Sub-processors for Next Quarter				
Emburse Service	Sub-processor Entity Name	Sub-processor Services Provided	Country	Category
Emburse Enterprise	DDDInvoices	E-invoice and tax compliance reporting services	EU (Frankfurt)	Optional Product Feature

Emburse Financial Partners

Emburse works directly with financial partners to perform reimbursements and KYC/KYB related to money movement. The partners can vary depending on the different Emburse product implementations, customizations, and product features used by our customers. These partners are not sub-processors of Emburse, customers are required to enter into Terms of Service with these partners independently. Emburse and these partners become co-processors for our shared customers.

Emburse Service	Partner Name	Partner Services Provided
Emburse Cards	Stripe	Card issuing platform - Customers initiate a transfer of funds (ACH, SEPA Bank Transfer, Faster Payment Systems) to fund their Emburse Cards (funds are held in a Stripe GL at many different FI), and then are able to issue cards and set limitations on spending.
Emburse Enterprise	Corpay	Payment services for ACH, reverse wire and check issuance for US and Canada customers
Emburse Enterprise	Wise	Wise directly debits our customers account and then pays out the reimbursement to the end user.
Emburse Enterprise	Convera	Payment services for ACH, wire, currency conversion payments and check issuance for domestic and most global region payments
Emburse Enterprise	Forte	ACH Payment processing. Forte directly debits our customers account and then pays out the reimbursement to the end user.
Emburse Professional	Convera	Payment services for ACH, wire, currency conversion payments and check issuance for domestic and most global region payments
Emburse Professional	Forte	ACH Payment processing. Forte directly debits our customers account and then pays out the reimbursement to the end user.
Emburse Spend	Forte	ACH Payment processing. Forte directly debits our customers account and then pays out the reimbursement to the end user.
Emburse Spend	Stripe	Card issuing platform - Customers initiate a transfer of funds (ACH, SEPA Bank Transfer, Faster Payment Systems) to fund their Emburse Cards (funds are held in a Stripe GL at many different FI), and then are able to issue cards and set limitations on spending. Performs accounts receivable functions.
